Major Features

of Classroom Programs

JEENEET Academy Classroom Programs are unique in themselves as they ensure the best possible result depending upon the basic potential of the Student and his / her ability to work hard.

The methodology developed by us and which is followed in our Classroom for JEE Advanced and NEET (Pre-medical) preparation lays emphasis on making the Students imbibe the fundamental concepts of Science & Maths and on sharpening their analytical skills and parallel thinking process.

This enables them to creatively resolves complex and tricky problems by mere application of basic concepts.

JEENEET ACADEMY

The Benchmark of Academic Excellence

At JEENEET ACADEMY, excellence is not an aspiration—it is a standard we uphold every single day. Built on the foundation of precision teaching, intellectual discipline, and uncompromising academic rigor, we cultivate future leaders who are prepared to secure top ranks in the most competitive national examinations.

Our academic ecosystem is designed for high performers. With distinguished faculty, research-driven study frameworks, and deeply personalized mentorship, we transform potential into measurable achievement. Every concept is mastered with depth, every strategy is crafted with intent, and every student is trained to perform under the highest competitive standards.

At JEENEET ACADEMY, we do more than prepare students for examinations—we shape analytical thinkers, problem solvers, and future innovators ready to excel at the nation's most prestigious engineering institutions.

JEENEET ACADEMY

Mission and Vision

JEENEET ACADEMY is strategically advancing toward a strong and prestigious Pan-India presence, with a vision to bring elite competitive exam preparation to every serious aspirant across the nation. Our expansion is driven not by scale alone, but by the commitment to deliver uniform academic excellence, premium learning infrastructure, and world-class mentorship standards in every Center we establish.

As we expand into key metropolitan cities, educational hubs, and high-potential emerging regions, we aim to build a nationwide academic network recognized for producing top rankers, consistent results, and future national innovators. Every new Center will reflect our core philosophy — precision learning, performance discipline, and uncompromising quality.

Our long-term vision is to position our institute as a nationally trusted academic powerhouse that defines the gold standard of competitive exam preparation across India.

Classroom Programs

Early Achiever (For Students in Class VII & VIII)

This comprehensive program is designed to bridge the gap between school-level academics and the rigorous demands of national competitive exams. By evolving a student's thinking process and sharpening their analytical skills, we lay a robust foundation for high-level milestones including **IOQM, NTSE, NSEJS/IJSO, and RMO**.

Beyond immediate success, this curriculum acts as a springboard for future excellence in premier entrance exams such as **JEE Main, JEE Advanced and NEET**.

Why Start Early?

Success is a measure of relative performance, and the transition from the text-based learning of Class VI to the more mature academic requirements of Class VII and beyond is a critical turning point. Our program helps students:

- **Imbibe a Competitive Spirit:** Preparing well in advance reduces stress and anxiety during high-stakes years.
- **Transform Thinking:** We move beyond rote memorization to foster logical reasoning and scientific aptitude.
- **Noticeable Growth:** Parents will observe a substantial evolution in their child's IQ and problem-solving capabilities.

Curriculum & Structure

The program spans approximately **180 hours** of intensive learning divided into **four strategic phases**. We provide in-depth instruction across:

- **Mathematics**
- **Science** (Physics, Chemistry, and Biology)

The Learning Ecosystem

Students receive a complete toolkit designed to eliminate the need for external textbooks or supplementary materials:

- **Comprehensive Study Material:** A single, all-encompassing resource supplemented with advanced problem sets.
- **Daily Practice Problems (DPP):** Daily Practice Problems (DPP) ensure consistent engagement; students complete these before moving to the next chapter.
- **Simulated Testing Environment:** Success requires more than knowledge—it requires "Examination Temperament." We build this through:
 - Regular Quizzes and Phase Tests.
 - Bi-Weekly Tests conducted under real-world exam conditions.
- **Feedback & Analysis:** Detailed test analysis sessions provide students with actionable insights into their performance.

Classroom Programs

Pre- foundation Advanced Batch

(For Students in Class IX)

This program is meticulously designed to bridge the gap between school academics and high-level competitive success. We don't just teach subjects; we **evolve the student's thinking process**. By raising the student's IQ and sharpening analytical skills, we empower them to solve complex problems with confidence and precision.

Program Focus & Objectives

Mastery of Fundamentals: Deep-dive into the core concepts of Mathematics and Science (Physics, Chemistry, Mathematics and Biology).

Analytical Evolution: Moving beyond rote learning to develop advanced problem-solving techniques. **Time Management:** Imparting strategic skills to ensure optimum output during high-pressure exams. **Board Excellence:** Comprehensive coverage of the Class IX and X syllabus to ensure top-tier results in School and Board exams.

Why Start in Class IX? Addressing the "Quantum Jump"

Most students wait until Class XI to begin competitive coaching, often finding themselves overwhelmed by the sudden spike in difficulty. This program solves that by:

Eliminating the Struggle: Preparing students for the "exponential increase" in academic rigor between Class X and XI. **Early Exposure:** Introducing students to the world of competitive exams like **NTSE, NSEJS/IJSO, IOQM, and RMO**—bringing both glory and vital experience.

Building the Prerequisite: Ensuring a stellar performance in Class X boards to secure the Science stream for future engineering or medical careers. **Strategic Advantage:** Establishing a foundation for **JEE Main, JEE Advanced, and NEET** years before the competition begins.

Curriculum & Structure

The program consists of approximately **200 hours of intensive learning**, strategically divided into four phases: **Integrated Learning:** Comprehensive instruction across Mathematics, Physics, Chemistry, and Biology. **All-in-One Resource:** We provide a single, exhaustive study material supplemented by specialized problem sets. No additional books are required. **Daily Practice Problems (DPP):** Chapter-specific assignments must be completed and submitted before moving to the next topic, ensuring a rock-solid command of every concept. **Olympiad Support:** Special support /Additional coverage of syllabus for IOQM, NSEJS (Jr. Science Olympiad Stage-1), as these exams demands topics from higher classes. **Extended NTSE Support:** Our commitment to NTSE preparation continues even after the core program concludes.

The Competitive Edge: Testing & Feedback

Success requires more than knowledge—it requires **"Examination Temperament."** We build this through a simulated testing environment: **Simulated Testing:** Regular Quizzes, Phase Tests, Bi-Weekly Tests & Monthly Tests conducted under real-world exam conditions. **In-Depth Analysis:** Every test is followed by a detailed feedback session, providing actionable insights into performance and areas for improvement.

Classroom Programs

Foundation Pro Program Batch

(For Students in Class X)

This comprehensive program is designed to prepare students for school, board exams, and prestigious scholastic competitions at the city, state, and national levels. By focusing on raising a student's IQ and sharpening analytical skills, we evolve their thinking process to master complex problem-solving.

Our curriculum builds a formidable foundation for **JEE Main, JEE Advanced, and NEET**. By starting in Class X, students bridge the "academic gap" between secondary and senior secondary levels, ensuring a seamless transition to the rigorous demands of Classes XI and XII.

Core Objectives

Conceptual Mastery: Deep-dive into the fundamental concepts of Mathematics, Science (Physics, Chemistry, Biology), and Social Science. **Analytical Evolution:** Training the brain to dissect and solve multifaceted problems with ease. **Strategic Time Management:** Imparting techniques to ensure maximum productivity and speed during exams. **Board Excellence:** Complete and rigorous coverage of the Class X syllabus to ensure top-tier board results.

The Class X Challenge: Why Early Preparation Matters

Many students focus solely on Class X board scores, realizing too late that the leap to Class XI is a "quantum jump" in difficulty. We address these critical issues: **Stream Eligibility:** Excelling in Class X is the first step toward securing the Science stream required for engineering and medical careers. **The Competitive Gap:** Standard school curriculum often falls short of the requirements for **NTSE, IOQM, and NSEJS/IJSO**. **Exam Temperament:** Most students lack exposure to national-level competition until Class XI. We provide that exposure early, building the confidence and "glory" that comes with early competitive success.

Curriculum & Structure

The program features **200 hours of intensive learning**, strategically divided into four phases: **Integrated Learning:** Holistic instruction across Mathematics, Physics, Chemistry, and Biology. **The "All-in-One" Resource:** Students receive exhaustive, specialized study materials and problem sets. No external textbooks are required. **Daily Practice Problems (DPP):** Chapter-specific assignments are submitted and reviewed by faculty. Personal feedback and remarks ensure every student masters the fundamental concepts necessary for top ranks.

Olympiad Support: Additional coverage of advanced topics specifically required for **IOQM** and **NSEJS (Stage-1)**. **Extended NTSE Support:** Our commitment to your success continues with dedicated NTSE preparation even after the core program concludes.

The Competitive Edge: Testing & Feedback

Knowledge alone isn't enough; success requires **"Examination Temperament."** We cultivate this through a simulated testing environment: **Rigorous Testing:** Regular Quizzes, Phase Tests, Bi-Weekly, and Monthly Tests conducted under real-world exam conditions. **In-Depth Analysis:** Every test is followed by a detailed feedback session. We provide actionable insights, identifying specific strengths and areas for improvement to ensure constant growth.

Classroom Programs Advanced Learning Program (For Students in Class XI)

This Program will automatically ensure that you excel in JEE Main & NEET. This program also prepares students comprehensively for other Engineering Entrance, NEET and respective Competitive & Scholastic Exams.

This transformational program is designed to enhance your analytical, logical & thinking ability and attain success in JEE Main & JEE Advanced, NEET, X, XII Boards, Olympiads

JEENEET prepares you for JEE Advanced, JEE Main & NEET in a Pattern Proof Mode. This means that you are prepared to give your best and optimum performance even if the pattern of the exam is changed at the last minute. Your ambitions aren't limited to one exam and neither are we. We stand alone in our commitment to student success across the entire spectrum: JEE (Main & Advanced), NEET, WBJEE, BITSAT, VITJEE, Boards, and Olympiads.

Our Academic Phase Plan covers the entire syllabus of JEE Main, NEET and JEE Advanced. Each phase has exhaustive quizzes and Phase Tests (both on JEE MAINS ADVANCE & NEET pattern).

Curriculum & Structure

The program features **500+ hours of intensive learning**, strategically divided into four phases:

- **Integrated Learning:** Holistic instruction across Mathematics, Physics, Chemistry, and Biology.
- **The "All-in-One" Resource:** Students receive exhaustive, specialized study materials and problem sets. No external textbooks are required.
- **Daily Practice Problems (DPP):** Chapter-specific assignments are submitted and reviewed by faculty. Personal feedback and remarks ensure every student masters the fundamental concepts necessary for top ranks.
- **Olympiad Support:** Additional coverage of advanced topics specifically required for **IOQM, RMO** and **Sr. Olympiads** (Physics, Chemistry, Mathematics & Biology).

Precision-Engineered Test Series for Rank Optimization

Knowledge alone isn't enough; success requires **"Examination Temperament."** We bridge the gap between classroom learning and competitive success through a disciplined regimen of weekly and monthly tests, all conducted under real-world exam conditions to build confidence and precision.

Precision Assessment for Rank Optimization Beyond our core classroom programs, we offer a robust assessment framework designed to secure your desired rank. This ecosystem features our **Rank Improvement Integrated Test Series (Ri²TS)** for consistent progress tracking, and our premier open platform, the **Rank Enhancement Test Series (RETS)**. Each assessment is paired with in-depth **Test Analysis Sessions** led by expert mentors. We don't just deliver results; we provide the strategic insights necessary to bridge knowledge gaps, sharpen exam temperament, and climb the rank list.

Classroom Programs Advanced Learning Program (For Students in Class XII)

This program also prepares students comprehensively for JEE Advanced, NEET, JEE Main and other Entrance and respective Competitive & Scholastic Exams.

Significant improvement in just one year in your preparation which will have positive impact in helping you get into an IIT or reputed college (medical) with a desired Rank. You may be able to improve your JEE Main, NEET & JEE Advanced Rank from below 5000 to Top 100.

JEENEET prepares you for JEE Advanced, JEE Main & NEET in a Pattern Proof Mode. This means that you are prepared to give your best and optimum performance even if the pattern of the exam is changed at the last minute. Your ambitions aren't limited to one exam and neither are we. We stand alone in our commitment to student success across the entire spectrum: JEE (Main & Advanced), NEET, WBJEE, BITSAT, VITEEE, Boards, and Olympiads.

This transformational program is designed to enhance your analytical, logical & thinking ability and attain success in JEE Main & JEE Advanced, NEET, X, XII Boards, Olympiads. Our Academic Phase Plan covers the entire syllabus of JEE Main, NEET and JEE Advanced. Each phase has exhaustive quizzes and Phase Tests (both on JEE MAINS ADVANCE & NEET pattern).

Curriculum & Structure

The program features **500+ hours of intensive learning**, strategically divided into four phases:

- **Integrated Learning:** Holistic instruction across Mathematics, Physics, Chemistry, and Biology.
- **The "All-in-One" Resource:** Students receive exhaustive, specialized study materials and problem sets. No external textbooks are required.
- **Daily Practice Problems (DPP):** Chapter-specific assignments are submitted and reviewed by faculty. Personal feedback and remarks ensure every student masters the fundamental concepts necessary for top ranks.
- **Olympiad Support:** Additional coverage of advanced topics specifically required for **IOQM, RMO and Sr. Olympiads** (Physics, Chemistry, Mathematics & Biology).

Knowledge alone isn't enough; success requires **"Examination Temperament."** We bridge the gap between classroom learning and competitive success through a disciplined regimen of weekly and monthly tests, all conducted under real-world exam conditions to build confidence and precision.

This ecosystem features our **Rank Improvement Integrated Test Series (Ri²TS)** for consistent progress tracking, and our premier open platform, the **Rank Enhancement Test Series (RETS)**. Each assessment is paired with in-depth **Test Analysis Sessions** led by expert mentors. We don't just deliver results; we provide the strategic insights necessary to bridge knowledge gaps, sharpen exam temperament, and climb the rank list.

Classroom Programs

Ultimate Rankers Program

(For Students in XII pass)

An Academic Opportunity to Conquer Your JEE & NEET Dream within the Right Timeframe. One Year Program for JEE Main, NEET & JEE Advanced focuses on delivering the essential impetus for Students to achieve a Top Rank. Students can develop a sound examination temperament and secure a high score in all the competitive entrance exams. Empowered by our value-based education system, our team nurtures young minds to inculcate the habit of winning.

The program is for:

Students who couldn't prepare well for JEE Main, NEET and JEE Advanced as per their potential. Students who are competing in JEE & NEET as their last chance and are willing to put in sincere efforts till their goal is achieved. Students ready to do a lot of regular self-study and those who won't miss a single class to adjust to the speed of the program.

In this program, our faculty members and mentors help Students master their concepts of physics, chemistry, biology and mathematics. We help them to sharpen their analytical skills, evolve their thinking process, and plug the loopholes to build the right examination temperament. As a result, Students can creatively solve complex and tricky problems by applying basic concepts for a quantum jump in their JEE Main, NEET and JEE Advanced rank. Along with learning time management strategies, our Students learn how to ensure the optimum output with exemplary efforts. It enables them to excel in JEE Main, NEET & JEE Advanced and all other entrance exams.

Curriculum & Structure

The program features **900+ hours of intensive learning**, strategically divided into four phases:

- **Integrated Learning:** Holistic instruction across Mathematics, Physics, Chemistry, and Biology.
- **The "All-in-One" Resource:** Students receive exhaustive, specialized study materials and problem sets. No external textbooks are required.
- **Daily Practice Problems (DPP):** Chapter-specific assignments are submitted and reviewed by faculty. Personal feedback and remarks ensure every student masters the fundamental concepts necessary for top ranks.

Knowledge alone isn't enough; success requires **"Examination Temperament."** We bridge the gap between classroom learning and competitive success through a disciplined regimen of weekly and monthly tests, all conducted under real-world exam conditions to build confidence and precision.

Precision Assessment for Rank Optimization Beyond our core classroom programs, we offer a robust assessment framework designed to secure your desired rank. This ecosystem features our **Rank Improvement Integrated Test Series (Ri²TS)** for consistent progress tracking, and our premier open platform, the **Rank Enhancement Test Series (RETS)**. Each assessment is paired with in-depth **Test Analysis Sessions** led by expert mentors. We don't just deliver results; we provide the strategic insights necessary to bridge knowledge gaps, sharpen exam temperament, and climb the rank list.

Comprehensive Test Series Program

(For Students in XI, XII & XII pass)

Precision Assessment for Rank Optimization

Knowledge gives you confidence. Examination Temperament gives you rank.

At JEENEET Academy, we believe success in JEE & NEET is not determined by how much you study but by how effectively you perform under pressure. True excellence is built through disciplined testing, strategic analysis, and continuous refinement.

From Preparation to Performance

Our structured assessment ecosystem is designed to transform potential into measurable results. Every test is conducted under real exam conditions to simulate the actual competitive environment. This builds accuracy, speed, mental stamina, and the confidence required to excel on the final day.

Our Elite Testing Framework

Rank Improvement Integrated Test Series (Ri²TS)

A structured internal evaluation system focused on continuous progress tracking, concept strengthening, and performance stability.

Rank Enhancement Test Series (RETS)

Our premier open platform designed to benchmark students at a competitive level and prepare them for national-level challenges.

Each test is followed by comprehensive solutions and in-depth Test Analysis Sessions led by expert mentors. We go beyond marks, we decode your performance, identify learning gaps, eliminate weak zones, and build a personalized improvement roadmap.

Real Exam Simulation

Our tests include both full syllabus and part syllabus formats aligned with the latest JEE (Main & Advanced) and NEET patterns. The structured schedule enhances:

- Time management
- Accuracy under pressure
- Strategic question selection
- Emotional control during exams

Choose Your Path to Excellence

We offer two powerful programs:

1. **Comprehensive Study Material + Test Series (Online & CBT Mode)**
Complete preparation support with structured content and systematic evaluation.
2. **Exclusive Test Series Program (Online & CBT Mode)**
For serious aspirants who want focused performance testing and rank enhancement.

Study Smart. Test Smarter. Rank Higher.

Success in competitive exams is not accidental- it is engineered through precision, analysis, and relentless improvement.

Your preparation builds knowledge.

Our assessment builds champions.
